## Accounting & Financial Leadership

BIK & CO, LLP's financial outsourcing is an effective option for businesses that are growing or downsizing. It is a way to obtain competent, part-time, permanent or temporary on-site financial leadership tailored to fit your needs. Your CFO or Controller will be on-site a day or two a week or a few days a month, but accessible via phone or email at any time.

There are significant financial benefits to our approach. The primary benefit is having an experienced financial executive available to manage your accounting and financial matters without incurring the cost of a full-time employee. In addition, that individual will bring ideas from the other clients he or she supports, plus remain current on technical and regulatory issues through our support system at BIK. We offer the best of both worlds: a CFO or Controller who is accessible, experienced in the position, and handles the financial responsibilities of the business without being a fixed cost.

Our CFO is an independent, unbiased executive with whom you can share sensitive information and receive objective answers. This mitigates the risk that honest and straightforward input will be sacrificed for individual job security or other work-related reasons unique to internal employment when reducing benefit costs, reducing the work force, or restructuring jobs or the company.

BIK's Controller | CFO will provide a fresh approach for companies on the rise or those not requiring a full-time CFO or Controller.
